

The *real* people behind technology

Tecnet & Lenovo: Meeting Rooms That Work

GET STARTED

www.tecnet.ca

Our Company

Tecnet

50 Years

Celebrating 5 decades supporting organizations, communities, and people in British Columbia.

100 Employees

Locally owned and operated, long-tenured staff, and all team members work and live in Canada.

35 Service Centers

We have an extended network of 100 field technicians supporting 35 ASCs across BC.

Meet Our Speaker:

Stefano Hanks

Smart Collaboration | Field Account Executive | Lenovo

Stefano Hanks is a Smart Collaboration Field Account Executive at Lenovo, where he helps enterprise and public-sector organizations across Canada reimagine how people meet, collaborate, and make decisions in a hybrid-first world. Working at the intersection of IT, AV, and business strategy, Stefano partners with customers and integrators to transform traditional meeting rooms into intelligent, AI-enabled collaboration spaces that are secure, scalable, and easy to use.

Lenovo Smarter technology for all

ThinkSmart delivers purposeful innovation that transforms collaboration, helping teams connect better and work smarter in the hybrid workplace.

We empower IT leaders with tools to run meetings smarter, more secure, and scalable.

Product Catalog

Best-in-class products for better meetings

ThinkSmart Core Gen 2

The smartest thing in your meeting room

Powerful

Engineered for maximum reliability and 24/7/365 operation, this powerhouse delivers the high performance you need for consistent collaboration and easy management.

Flexible

ThinkSmart Core is the foundation for your high-impact space. No longer be limited by technology to build digital spaces that work for you.

Purpose-built

Every detail of this collaboration essential is engineered with the intention of minimizing disruption and technology failures.

ThinkSmart Manager, Services,
and Support

ThinkSmart Manager

Cloud-based hassle-free remote efficiency for your entire ThinkSmart fleet

intel
vPRO

Proactive monitoring

- View real-time device status and resolve issues before they disrupt meetings.
- Receive notifications when devices go offline or require attention.

Better protection

- Securely manage and rotate passwords and UC accounts at scale across your organization.
- Apply consistent settings and usage policies across your entire device fleet.

Out of Band Management

- Deploy, configure, and update devices from anywhere—no need to be on site.
- Easily oversee hundreds of devices across multiple locations from a single dashboard.

ThinkSmart Manager comes pre-loaded on ThinkSmart products. ThinkSmart Manager has two levels: Basic and Premium. Premium is included with your purchase for one year. You can choose to continue service for an additional cost.

Centralized control for a distributed workforce

Use a single console to remotely deploy, manage, configure, update, and resolve issues

One stop, real-time dashboard to see all ThinkSmart devices

Configure Microsoft Teams Rooms devices out of the box remotely or post-deployment

Bulk restart rules to automate rebooting processes

Version: 23.2.0.2023-02-15T09:27
© 2019 - 2023 Lennox
All rights reserved.

Leverage single console password management for BIOS, Windows, and Microsoft Teams accounts

Ability to remote into devices with one click without being on the same VLAN as the service

Manage smarter with centralized monitoring tools

Proactive alerts for device issues

Establish email notifications based on issues or device status to specific users for improved issue resolution time

Get real time notifications on critical issues, even before users can report them

The screenshot displays the ThinkSmart Manager interface. On the left is a navigation sidebar with options: Dashboard, Device Manager, Issues Manager (with sub-items: Issues, ServiceNow Incident Rules), Users, Reports, and Notifications. The main content area is titled 'Devices' and shows a table of device status:

STATE	NAME	LOCATION	INTEL VPRO®	DEVICE
Offline	2022-SPCIF-Demo	SPCIF	Unavailable	Hub 500
Offline	Test Room ABC	NI	Unavailable	Hub
Online	M1L_Demo_Auto-1	Lab-1A	Connected	TET M920Q
Online	QMB_Demo-Manual	Lab-1A	Connected	TET M920Q
Pending	32132H	---	Unavailable	Core Kit

Below the table, a detailed view of a device is shown. It includes a status indicator (Online), a configuration tab, and a table of device specifications:

STATUS	MODEL	UC SOLUTION
No Display	10T1	MTR
IP ADDRESS	LOCATION	UP TIME
10.37.172.152	Lab-1A	0d 7h 7m

Additional sections include 'ABOUT THIS DEVICE' with fields for SERIAL NUMBER (MJ0CLM1L), MACHINE TYPE (10T1), WI-FI MAC ADDRESS (c8-09-a8-5b-62-ab), and ETHERNET MAC ADDRESS (f8-75-a4-67-0f-bb). There is also an 'OPEN ISSUES' section with a table:

ISSUE DESCRIPTION	DATE
Video disconnected	Date opened: 03-06-2023

At the bottom, there are controls for 'PERIPHERALS' and buttons for 'Cancel', 'Delete', and 'Save'. The footer of the interface shows the version: 23.2.0.2023-02-15T09:27 and copyright information: © 2019 - 2023 Lenovo. All rights reserved.

Download CSV lists of all devices and users, while generating reports on device issues and trends
